PROJECTS

Second Brain – Productivity & Knowledge Management Web App

- Designed and developed a full-stack application inspired by the “second brain” concept, enabling users to save, organize, and manage digital resources (links, articles, videos, and documents) in one centralized platform.
- Implemented secure authentication and authorization using JWT and bcrypt, with full CRUD functionality for managing user content.
- Built a responsive and interactive UI using React, TypeScript, and Tailwind CSS, ensuring smooth performance across devices.
- Architected a scalable backend with Node.js and Express.js, integrated with MongoDB for efficient data storage and retrieval.
- **Stack:** React.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, bcrypt

Disease Prediction System

- Developed a machine learning model to predict patient risks for conditions such as blood pressure, cholesterol, liver disease, heart disease, and diabetes.
- Accepted health indicators as input and generated binary predictions (Yes/No) for early detection.
- Implemented model training, evaluation, and deployment using Python and Scikit-learn.
- Delivered actionable healthcare insights with a user-friendly interface and clear outputs.
- **Stack:** Python, Scikit-learn, NumPy, Pandas, Flask

TECHNICAL SKILLS

Languages	Java, C, JavaScript, TypeScript, Python
ML/DL	Pandas, NumPy, Matplotlib, Scikit-learn
Frontend	React.js, CSS, Tailwind, GSAP
Backend	Node.js, Express.js, JWT Authentication
Databases	MongoDB
Tools	GitHub, Postman, npm

EDUCATION

B.Tech – Computer Science & Engineering

Sept 2022 – May 2026

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar, India

- CGPA: 7.77 / 10
- **Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Software Engineering, Machine Learning, Cloud Computing, Artificial Intelligence

ACHIEVEMENTS & CERTIFICATIONS

- Achieved [NPTEL Certification](#) in Software Engineering (IITs initiative) by clearing a nationally proctored examination.
- Solved 200+ Data Structures and Algorithms (DSA) problems on platforms such as [LeetCode](#), enhancing coding proficiency, algorithm design, and problem-solving skills.
